How Many Stars in the Sky? – Puzzle (Older Elementary)

God told Abraham to go outside and count the stars if he could. His family would be as big as the stars in the night sky! Draw a circle around five stars close to each other. Continue until all the stars have been circled. Then, finish the math below. The answer will show you how many stars are visible in the sky without using a telescope!

Stars on the page _____ times 180 = _____ stars in the sky
